

Facilities Management

Specialist M&E Services for the FM Industry

TClarke

'You can set your watch by TClarke people - they are that reliable.'

This is an organisation that believes in skills, pride in their work and taking responsibility, rather than sitting back; it's great having them as part of our team. The quality of work and service is consistently high and that is of critical value to our business

TClarke

Our History and Values

We believe in quality.

We believe in direct employment.

We believe in skills and training.

We believe in partnerships with our clients.

Since 1889, TClarke has been an industry leader and innovator, first in electrical contracting and now in full building services, including world class, in-house mechanical and ICT. TClarke's FM Services deliver our promise of market-leading expertise you can trust.

Our specialist FM Services

- Electrical & Mechanical Maintenance
- Air Conditioning VRV, VRF & Split Systems
- Chilled Water Systems
- Commercial Boiler servicing and maintenance
- Biomass Boilers
- Ground & Air Source Heat Pumps
- Air Handling Plants
- BMS Controls and Integration
- Water Testing
- Fire Safety Systems
- Electrical PAT Testing
- Professional PPM Planning
- Fire Damper Testing

Our Approach

We deliver quality and consistent excellence because our promises are delivered by our directly employed, loyal and motivated workforce, driven by leaders at every level with deep commitment to our approach. Underpinning everything is our world class in-house safety regime.

1400 +
directly employed workforce

• Hands-on, can-do attitude

• Scale to deliver full nationwide coverage

• Personal pride in our work and service

- Professional Help Desks capable of rapid problem solution

- Operating tablet-based mobile systems for up to date project information

24/7

Dedicated high quality, qualified engineers available 24/7

We're on our way

You can rely on the teams handling your job and on the organisation behind them. TClarke's in-house teams right across the country are resourced and organised to deliver the immediate response our clients need, whatever the emergency.

It's all about prevention

TClarke is a comprehensive resource of engineering expertise. We help you address legislation requirements, manufacturer recommendations, current best practice and specific client requirements. Our FM Services are actively designed to maximise uptime and minimise costs over the long term. We cover all types of testing including legionella, thermal imaging and combustion.

Our world class expertise is constantly evolving as we deliver building services on world-scale projects across many sectors.

Peace of mind

- We strive to eliminate reactive maintenance but if it is needed, we can deliver instantly through our help desk and 24/7 call-out teams

Great Clients: Deep Relationships

When TClarke's Alan Maskell won an ITV internal service award, it said everything.

'Alan Maskell has been working alongside ITV since November 2006, on many projects both large and small. He is such a valued member of our team. No job is too big, no menial task too small, Alan is always there willing to help us in any way he can and the service he provides is always exceptional.'
